Vitamin E (as alpha-tocopherol acetate)	160 mg/kg
Copper (as Cupric Sulphate)	15 mg/kg

Vitamin statement is valid to best before end date on pack.

FEEDING GUIDE

For the amount to feed your cat, consult the feeding chart below.

This is a complete cat food and can be fed dry or moistened with warm water.

ALWAYS ENSURE THAT PLENTY OF CLEAN, FRESH DRINKING WATER IS AVAILABLE AND TAKEN BY YOUR CAT.

When introducing your cat to a new food, introduce it slowly, mixing it with the existing food and gradually increase the proportion over a two week period until you are only feeding the new food.

FEEDING CHART

WEIGHT OF CAT	DAILY FEED
Adult Cat 3kg	50 grams
Adult Cat 4kg	70 grams
Adult Cat 5kg	90 grams
Pregnant Cat	Up to 110 grams
Nursing Cat	Up to 320 grams

The feeding guidelines provided should be used as a starting point. The exact feeding amount for your cat will depend on many factors including age, breed, weight, sex, activity level, temperament, emotional state and general overall health. In general, your cat's needs and appearance should govern the amount fed; cats seldom overheat and generally regulate their food intake.

GUARANTEE

Should you not be completely satisfied with this product for whatever reason, please write to HJ Lea Oakes Ltd. at the address shown, giving full details and enclosing the pack contents. We will gladly send you a full refund including postage. Your statutory rights are not affected.

STORAGE INSTRUCTIONS
